Thanks (b) (4), (6) it was a very productive discussion from my standpoint......other action was Amazon to provide GSA with Ts and C's they have used to address their risk issues regarding the unlimited liability issue..

Laura, Bill, Keith, Michael and John,

Thank you for your time this morning to share an update from AWS, help us understand your goals and challenges, and provide feedback from a CSP perspective. I wanted to recap the follow up items we discussed to confirm our takeaways:

1) AWS Secret facility clearance holdup update - The Information Security representative from DSS has completed his initial assessment and no there are no additional actions for AWS. The package is now under review by DSS HQ. This is all the information we are able to provide at this point.
2) Centralized acquisition discussion follow up – Keith: if you would like to have a follow up discussion, please let us know if there is a good timeframe for you.
3) Cloud Information Center –follow up discussion on roadmap, T&C's, SLA's, etc. – John: please let us know when would be a good time to schedule a discussion.

Were there other topics to follow up on?

Thanks again for your time and partnership.
